

Feedbacks Klagenfurt

Italy:

I really liked this week. First of all my host girl was very nice and funny. She always listened to me and tried to make me happy all the time. The activities were interesting, I loved meeting the Syrian boys and writing my name in Arabic, because I love foreign languages. The day I liked most was Thursday, the view of Friesach in the snow was overwhelming and I had fun playing in the snow and visiting Pyramidenkogel. This experience made me get to know many people, so now I have more friends in foreign countries. I hope that this friendships will last! Last, but not least, I travelled to a new country and now I can say I really like Austria and the Austrian people. (Benedetta)

During the week I've had a lot of fun, I met many new people of different cultures. All the activities were interesting, especially when we met the Syrian boys and when we went to Graz because I liked the castle. My host boy was kind with me and now we are friends. This was a new experience for me and I'm thankful to my teachers to include me in this project. (Guilia Di Benigno)

During this week I've had a lot of fun and it was an amazing experience, because I've had the opportunity to get to know another country and other people. I really loved the visit to the city Graz, I love that city. I really also loved the meeting with the Syrian boy. I really love all the churches and all the castles that are here and I loved all the activities we've done. I really loved to play in the snow. I'm thankful to my teachers to let me participate in the project because I've had the opportunity to get to know people of a different country and I loved it so much. For me it's the first time that I have come to Austria and I really love this country. My host boy is so kind with me and I love him. (Illenia)

I've had a lot of fun and I enjoyed all the experiences we have made except for the visit to Pyramidenkogel because I am scared of heights. I really liked the visit to Graz and the chocolate factory in Friesach. The only thing I did not like was the rally in Klagenfurt because I did not know where to go and the questions were too specific. This trip is one of the best experiences in my life because I had the best partner in the world and she gave me the possibility to meet new amazing people. In the end I want to say that it's the first time that I have come to Austria and now I can say that I love this country and I want to come back here as soon as possible. (Sofia)

I enjoyed the program in Austria a lot. We visited a lot of different things and some were pretty interesting. The only thing I did not like was that we visited so many churches. It was a little bit boring. I really liked the Graz excursion. It was very nice and I enjoyed the free time.

The Grazer Schloßberg is beautiful. The Lasagne was not good, it's a lot better in Italy. The Pyramidenkogel is a high tower next to the Wörthersee and the view is great. (Giulia)

England:

Austria has been amazing! The sights were beautiful and I would do everything again! My hosts have been so helpful and I hope I see them again. I'm definitely coming to Austria again! (Imad)

My host family were very nice. The nights out and also the project at school were interesting. The locals were very warm. The most interesting was learning about their culture. And also trying out new food. My favourite day was Thursday because we did have a lot of fun. (Rui)

I have enjoyed this week a lot. My host was very good and accommodating. The first day was my least favourite when we were in the school most of the day. However Thursday was my favourite as we went to a chocolate factory. We also climbed up a hill and had a massive snowball fight all the way up and down. After this we drove in the bus to Pyramidenkogel observation tower. The view from the top was amazing and to sum it up we got to slide down the really long slide all the way down. The week as a whole has been very enjoyable, so thank you to all the hosts and the school. (Luke)

I enjoyed this project. It was quite fun and some good times. My favourite part of the project was when we went to Graz and had free time to see the town and Friesach when we had a snowball fight, yet it was very cold. My least favourite part was when we had the long talks on the second day, they were interesting, but very long. My host family here were very nice people, they took me out for food, skiing and to a fire pit. The food here was very delicious, my favourite food was Wienerschnitzel. It was the best food all week. My least favourite was the Tuesday lunch, fish. But overall an amazing week and I would love to do it again. (Molly)

I enjoyed the trip to Austria very much. I did a lot and have seen a lot of new and exciting things. My favourite part was the trip to Graz as I had fun roaming around free and the trip to the chocolate factory as it was interesting and being in the snow was something special. My least favourite was the Monday when we walked around Klagenfurt. Klagenfurt is very interesting, but the walk took hours and it was very cold. My host family were great and I am grateful for their hospitality. (Will)

Denmark:

The trip to Austria has been really nice! The people are very friendly. Moritz's family is very hospitable and they are some of the most friendly people I have met. They always made sure that I didn't miss anything and Moritz made sure that I had a good time for the whole week! Thank you, thank you Moritz. (Mathias)

The Fair Trade Project in Austria has been a good week. We have seen some fascinating landscapes, discovered some interesting places and met a lot of new people. However, I myself have to admit that this week has focused too much on church sightseeing. But this is only a minor detail. The Austrians showed us a great hospitality of which I am grateful. (Emil)

The people were openminded. The chocolate tasting was very good. There were too many churches and not enough fair trade. Some time it seemed they did not know what to do. The Austrian students told me more about the area than the guides did. (Jakob and Ole)

Slovakia:

The whole week started with a long journey. First, we took a bus to another city. Then we went by train to Bratislava, to Vienna and then to Klagenfurt. My exchange partner Jakob didn't live in Klagenfurt, but in a city named Villach, so we had to take the train every morning. On Monday we visited the school. It was really nice to hear something interesting about the school from the students themselves. The next day we had a workshop organised by Climate Alliance Austria about fair trade and sustainability and we visited some castles and churches, too. Wednesday was very interesting because we had a walking tour in Graz. I think Graz was very interesting and beautiful city full of great buildings. Thursday was the most interesting day for me, I loved the chocolate factory especially the tasting. The last day of our trip was Friday and we visited Minimundus which was also very enjoyable. The trip to Austria was great. I had a nice hosting family, met new friends and learned about new cultures. I have great memories. I will never forget this trip and I hope I can visit Klagenfurt again. (Maria)

The positive sides of the programme were Klagenfurt, which is a big city that I liked and the chocolate factory in Friesach. These were nice places, also the mountains. I liked all but the boring churches. (Andrej)

This week is very interesting. I met a lot of new people here in Austria. Today we went to the chocolate factory, which was great. The programme was great, the food was great. Everything was great, only the busrides were boring. (Jozef)

Germany:

Jan and his mom are really friendly. I felt at the host like in my home and I was really happy. I think the programme was very interesting but I think many people found the presentations boring. Only And's presentation was good. The coolest people of the project were Jan, Anton and Andi from Austria, because they were funny and made jokes and we could chill with them. (Joshua, GE)

Unsere Projektwoche startete mit etwas Verspätung am Dortmunder Bahnhof. Unser Flug nach Klagenfurt startete ebenfalls mit ein wenig Verspätung vom Flughafen Köln-Bonn. Als wir am Flughafen angekommen waren erwarteten uns unsere Gastfamilien bereits. Am Montag begann das Programm um 9:00 mit einer Begrüßung und zwei Präsentationen über die Schule und über die Stadt, inklusive eine Vorstellung der Woche. Nach dem Mittagessen folgte eine zweistündige Stadtrally, welche von kleinen Teams durchgeführt wurde, das war wirklich sehr gut. Am Dienstag folgte eine wirklich interessante Vorstellung und ein Workshop vom Klimabündnis Österreich. Besonders interessant waren die Vorträge der beiden Syrer, die aus dem Nähkästchen über ihr Heimatland erzählten. Am Mittwoch folgt ein Tag in Graz, der war sehr, sehr schön, jedoch war die Zeit von 8:00 bis 18:00 ein wenig zu lang. Am Donnerstag besichtigten wir Friesach, besonders der Besuch in der Schokoladenmanufaktur war wirklich sehenswert. Auch der Pyramidenkogel am Wörthersee war nett, der Ausblick war unbeschreiblich schön (Nils, GE)

The fair trade project was very interesting because of some excursions and it was interesting to hear what products other countries have. And it was interesting to see the film about climate change. Sometimes I found the city tours not so interesting, but the chocolate factory was very nice. (Timon)

The evenings were very nice. The program was o.k. but it was a little bit boring to do so much history. Maybe next time there should be more sport. But the people are really nice. The teachers should do more what the students want, then the programme would be better. And maybe next time it's warmer. (Noah)
